WORMS CAUSE DEATH.

Thousands upon thousands have gone down to graves from Marasmus, or a wasting away of the body, Epilepsy, Fits, St Vitus' Dance, Locked Jaw, Apoplexy, Mania, Dropsy in the Head, Palsy, Consumption, Pleurisy, Dysentery, Convulsions, and many other supposed apparent diseases; have been doctored for some imaginary complaint without the least relief; and others are still suffering, when all the trouble arises from worms, and worms alone, which are entirely overlooked, and when the proper treatment would have saved their lives, and restored them to health. Every observant mother cannot but see and admit the truth; but still many physicians shut their eyes to that

all-important cause of disease. Persons of all ages and sexes, from the tender infant at the breast to old age, are all liable to be afflicted with worms. Many a person has sufferedhis whole life from them, and never suspected it. Different kinds of worms inhabit different parts of the body; but a long dissertation on their particular locality, origin, &c. is superfluous and unnecessary, so long as a proper, safe and certain remedy is at hand. That is all the public wants or cares for. The sale of over two millions of boxes of Sherman's Worm Lozenges, in less than five years, places their reputation far above all other worm

And filled with Contributions from the most embut he would try: - so the Dr gave him a box of Sherman's Worm Lozenges, and told him to take them according to the printed directions accompanying them. ## THE COLUMBIAN

The motives which have led to the commencement of this undertaking may be briefly stated. It is believed by the proprietor that there is in the United States an immense provision of literary ability, for which as yet there is no adequate encouragement, or field of display; that besides the numbers of clever and successful writers, whose productions are weekly, and monthly, and annual. ly read with delight by thousands, there are yet greater numbers constantly arriving at maturity fame: and that the powers of those whose name. are already pronounced with respect by line of wisest censure, are capable of more and sp higher exertion than has yet been called forth. is believed, too, that the demand for literary pr duction in this country, especially in the period cal channel, exceeds the supply in a very large proportion, and that new supplies have only to presented of the right quality, and in the right way, to ensure a hearty welcome and profitareception.
